What a great rally! Thirty-Seven controls over six hours and some amazingly low scores. If you ignore the Moore's 20 for a miss on C6 (which was a bit iffy) they ran a difficult rally with only a 0.3 penalty for the three legs and never used a TA. Car 6, a 1961 TR4A were running their first ever ORRC and would of been in contention for a convincing win in novice class if it wasn't for mechanical difficulties with a 48 year old car. Congratulations to Car 5 on a close fought novice win.

It's unfortunate the turnout was low, but we all had a lot of fun. Dennis is amazing in his ability to turn out a rally that keeps everybody thinking, and even out-thinking themselves. All the checkpoint crews were kept busy, all doing between four and seven controls each.
